# What is **LeDeR**?

**LeDeR** is about learning from the lives and deaths of people with a Learning Disability, and autistic people

**LeDeR** is a Service Improvement Programme

This report uses the information from the Lincolnshire LeDeR Reviews for local autistic people and people with learning disabilities

It covers the period from 1<sup>st</sup> April 2022 to 31<sup>st</sup> March 2023

It aims to share what we found out, and what actions Lincolnshire's Integrated Care System [LICS] is taking from this information, to improve local services

**All local LeDeR reviews look at information about:-**

**Who** the person was

**Where** and **how** they lived

and, **how old** they were when they died

## Lincolnshire Data 1 April 22 - 30 March 23

### Currently in Lincolnshire: -

- **14,000** adults with a diagnosis of learning disability

- **11,782** adults diagnosed with Autism

## Data of Lincolnshire LeDeR Referrals received

### Notifications received

There were 49 adult notifications received in Lincolnshire between April 2022 and March 2023. A **DECREASE** of 13 from 2021-22.

### Notifications allocated

48 notifications were allocated for initial or focussed review during the year.

### Reviews completed

There were 44 reviews completed and signed off in the year. That is an **INCREASE** of 9 from the previous year.

### Reviews completed within 6 months

57% of reviews signed off between April 2022 and March 2023 were completed within 6 months.

### Reasons for 6-month breaches

The most common reasons for the 6-month time limit on reviews being completed in Lincolnshire for 2022-23 were:

1. On Hold with the Coroner
2. Reviewer Workload

### Child reviews

There were 2 child reviews received during the year, 4.17% of the total notifications. A **DECREASE** of 8.50% from 2021-22.

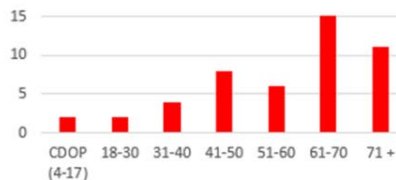

## Data from Lincolnshire LeDeR Referrals

### Sex

61% of people in the Lincolnshire data who died in 2022-23 were male and 39% female.

### Age

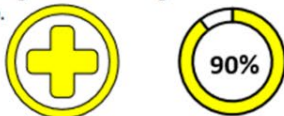

### Age at death

The median age of death for people with a Learning Disability or Autism was 57. The average life expectancy for the general Lincolnshire population is 81.

57 Years

### Diagnosis

43 of LeDeR reviews in 2022-23 were for patients diagnosed with a LD (90%). The remaining 10% were diagnosed with a LD & Autism.

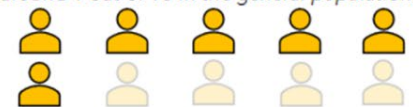

### Ethnicity

100% of people who died in 2022-23 in Lincolnshire identified as "White British".

100%

### Early death

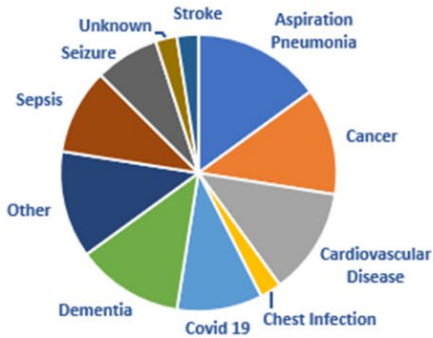

More than 6 out of 10 of those who died in Lincolnshire with a LD and/or Autism died before they were 65. This compares to around 1 out of 10 in the general population.

## Data on Lincolnshire's LeDeR Deaths

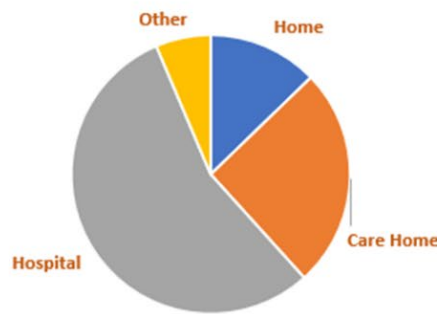

### Cause of death

The top 4 causes of death for people diagnosed with a Learning Disability and/or autism in Lincolnshire were Aspiration Pneumonia, Cancer, Cardiovascular Disease and Dementia.

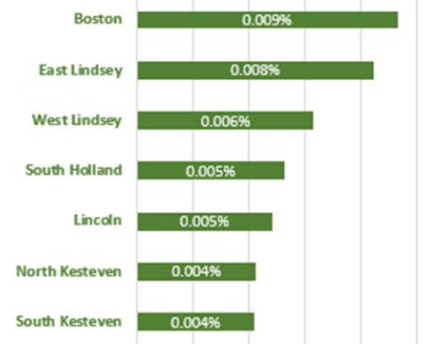

### Place of death

55% of deaths occurred in a hospital setting. An **INCREASE** of 2% from 2021-22. Deaths in a care home setting **DECREASED** from 34% in 2021-22 to 26% in 2022-23.

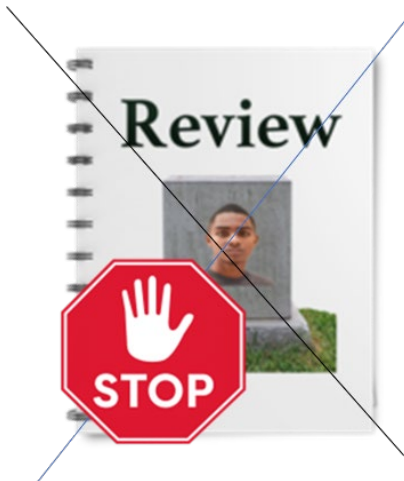

### Lincolnshire districts

The 2 highest percentage of deaths per population in Lincolnshire were Boston and East Lindsey, more than double that of some districts.

## Lincolnshire **LeDeR's** VISION and PRIORITIES 2023/2024

 **Reduce health inequalities for people with a learning disability and autistic people**

 To act quickly to improve Lincolnshire's local services through positive lessons learned

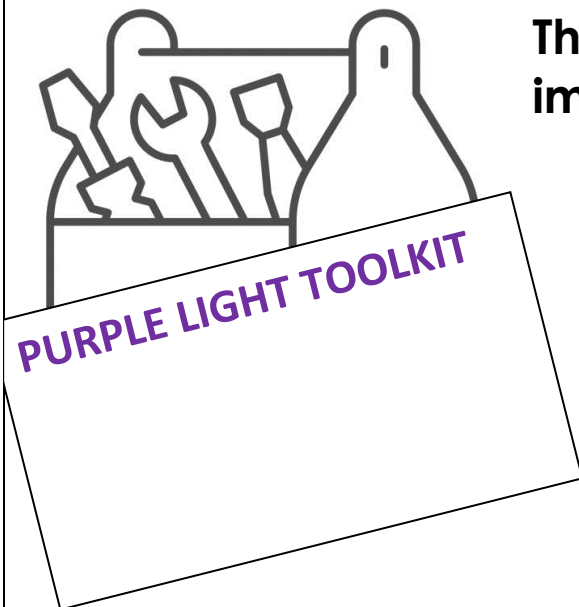

## Lincolnshire's LeDeR Governance Panel

The Governance Panel review areas of concern, and positive practice identified, from local **LeDeR** Reviews and we use what we have learnt to improve health care services

## National Learning Examples / LeDeR Focus :-

Epilepsy is more common in adults with a learning disability than those without a learning disability; It is more common amongst men and those with a higher level of impairment

The Purple Light Toolkit has been implemented as a resource supporting service improvement in epilepsy across Lincolnshire.

## THE IMPORTANCE OF ACCESSIBLE ANNUAL HEALTH CHECKS

- An independent study on Annual Health Checks was completed by Virginia House, a local Day Care Centre
- Lessons learned were shared locally about how Annual Health Checks could be made more accessible

## Ongoing LeDeR Learning Examples

### Lincolnshire LD Friendly GP Practice Quality Marks

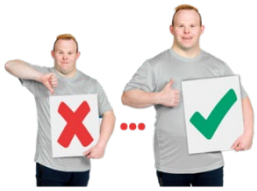

This was created to improve quality of care and service received from GP practices for all local people with a learning disability

### Other local learning has come from :-

- ✓ Recognition of good practice from 'The Lincolnshire GP Practice Awards'
- ✓ The 'Personal Profile' of Lincolnshire Expert by Experience [EbE] Mandy Hodson, a parent/carer on the LeDeR Governance Panel, using her lived experience to improve local services
- ✓ Local Partnerships and Collaborations improving local services for people with a learning disability and autistic people

## Lincolnshire LeDeR's ongoing commitment for local Improvement and Quality Assurance

Lincolnshire ICS wants to continue to make positive changes so everyone can live a long, healthy, and full, life

**Lincolnshire ICB would like to thank everyone, including all individuals, families, carers, and reviewers, who continue to support Lincolnshire's local LeDeR programme.**
