

## Learning Disability Health Checks Coding

### 1. Coding a Learning Disability Annual Health Check

Action	SNOMED code
Use either of these codes	Examination of a learning disabled patient* 442127005
	Learning Disabilities Health Assessment* 413126003

And:

Action	SNOMED code
Use all of these codes	Completion of Learning Disabilities health action plan 712491005
	Learning Disabilities health action plan reviewed 413163007
	Learning Disabilities annual health assessment 199751000000100

### 2. LD Register Submission

The Learning Disability register figure is manually input by the practice on to CQRS, without a recorded register the achievement data will not be extracted resulting in:

- Activity is not reported
- AHC payment to the practice will not be made

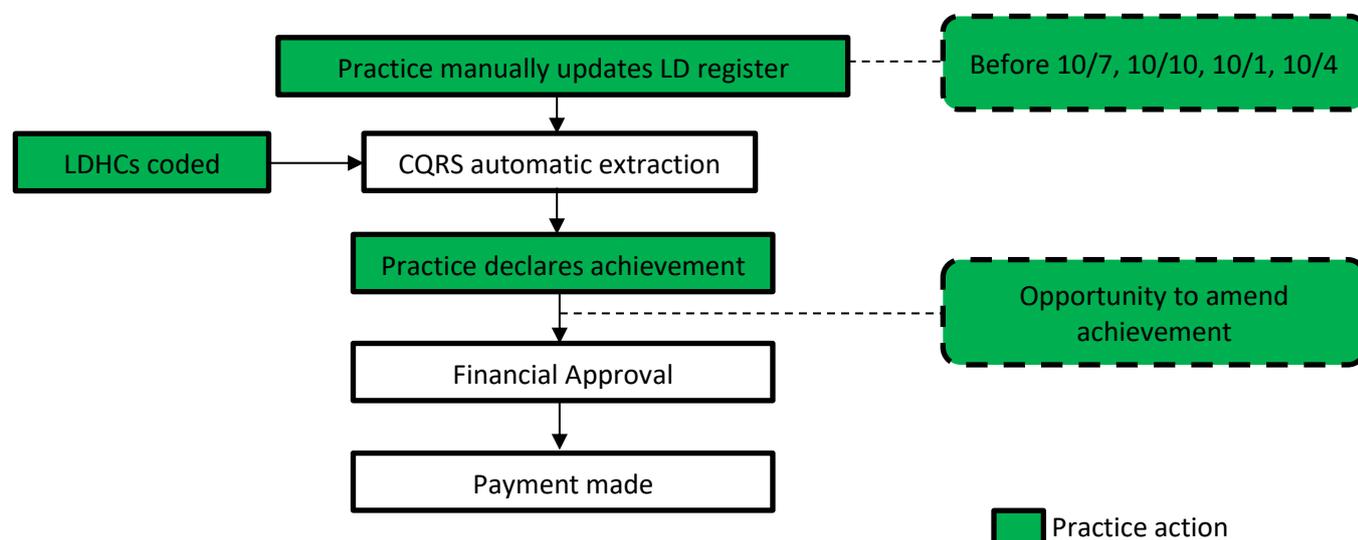

In order for a practice to amend their register size, they will need to follow the same process under Data Submission as they did to submit the figure initially. Once they reach the point of submission, they will see a column to the right hand side of the screen stating 'New Values' and this is where they will input their correct figure and submit.

Please note that the register figure should be completed even if there are no claims for that qtr.

### 3. Uploading AHC data to CQRS

CQRS automatically extracts the data from the GP clinical system, providing the Learning Disability register has been input.

The data for achievement (number of health checks) is extracted quarterly, usually on the 10<sup>th</sup> of month following the quarter end: 10/7, 10/10, 10/1, 10/4. The practice is required to declare the achievement in order to receive payment.

#### **4. Data amendment**

The achievement can only be amended if the achievement has not been financially approved. If it has been financially approved then the figure for the relevant quarter is unable to be amended, and any payments would have to be recorded outside of CQRS.

If it has not been financially approved then it can be amended by the practice if they revert the achievement in the first instance for payment declaration history. Once the achievement has been reverted then can then amend the data via data submission.

Or as an alternative the data can be amended by the commissioner, by completing the form below and returning to [england.gp-contracting@nhs.net](mailto:england.gp-contracting@nhs.net)
