FREEDOM OF INFORMATION – DECISION NOTICE

Dear Requester

FOI Reference Number: 72037

I refer to your email of 24 November 2023 requesting information in relation to Continuing Healthcare in service users own homes.

I can confirm on behalf of NHS Lincolnshire Integrated Care Board (ICB) and in accordance with S.1 (1) of the Freedom of Information Act 2000 (FOIA) that we do hold the information that you have requested. A response to each element of your request is detailed below.

This freedom of information request relates to the ICB's NHS Continuing Healthcare service, for adults.

I am interested in packages of care funded under NHS Continuing Healthcare that are provided in the service users own home. So these are most likely to refer to packages of care provided by home care agencies or domiciliary care provider.

Out of these packages of care I would like to know, currently:

a) How many packages involve the commissioning/funding of a nurse for 24 hours a day?

Nil

b) How many packages of care fall within the cost bracket of £10,000 to £11,000 a week?

Nil

c) How many packages of care fall within the cost bracket £11,000 to £12,000 a week?

Due to the nature of the information sought, including the sensitivity and low numbers held the ICB has engaged section 40 relating to personal data to withhold the information from disclosure "...to the world at large."

The ICB considers that this information is exempt under Freedom of Information Act 2000, Section 40(2) (personal information) as disclosure of this level of detail could lead to the identification of individuals, which would be in breach of Section 24(1) of the Data Protection Act 2018 and Article 21 of the UK General Data Protection Regulation. Although I cannot confirm the exact figure, I can confirm that the number in each of these categories is fewer than 5.

The FOIA introduces a broader concept of risk of personal identifiable information because its test for deciding whether personal data can be disclosed is whether disclosure to a member of the public would breach the data protection principles. This means that public authorities have to assess whether releasing apparently anonymised data to a member of the public would breach the data protection principles.

This is intended to ensure that public authorities take into account the additional information that a member of the public might have (information on the Web or in news reports, public libraries, court records etc.) that could allow data to be combined to produce information that relates to and identifies a particular individual - and that is therefore personal data.

Low statistical values increase the likelihood of seemingly anonymised information being combined with other information to identify an individual.

d) How many packages of care fall within the cost bracket of £12,000 to £13,000 a week?

Nil

e) How many packages fall within the cost bracket of £13,000 to £14,000 a week?

Please see response to c)

f) What is the budget/cost of the most expensive package of care? This can be weekly or annual budget, rounded to the nearest £1000 to avoid identifying the package by giving exact budget.

£13,000

If the answers can be given with specific reference to a to f above.

I hope that this answers your queries with the information we currently hold, but if I can be of any further assistance please do not hesitate to contact me.

If you are dissatisfied with the handling of your request, you have the right to ask for an internal review. Internal review requests should be submitted within two months of the date of receipt of the response to your original letter and should be addressed to
